Enterprise Monitoring Report

## THE BEST ENTERPRISE MONITORING PRODUCTS ACCORDING TO USERS

SUMMARY

LogDNA is an industry leader in Enterprise Monitoring, serving hyperscale companies and large enterprises including IBM Cloud, Asics, Lime, and Better Mortgage. Dive into this eBook to see why users choose LogDNA to help them manage their data.
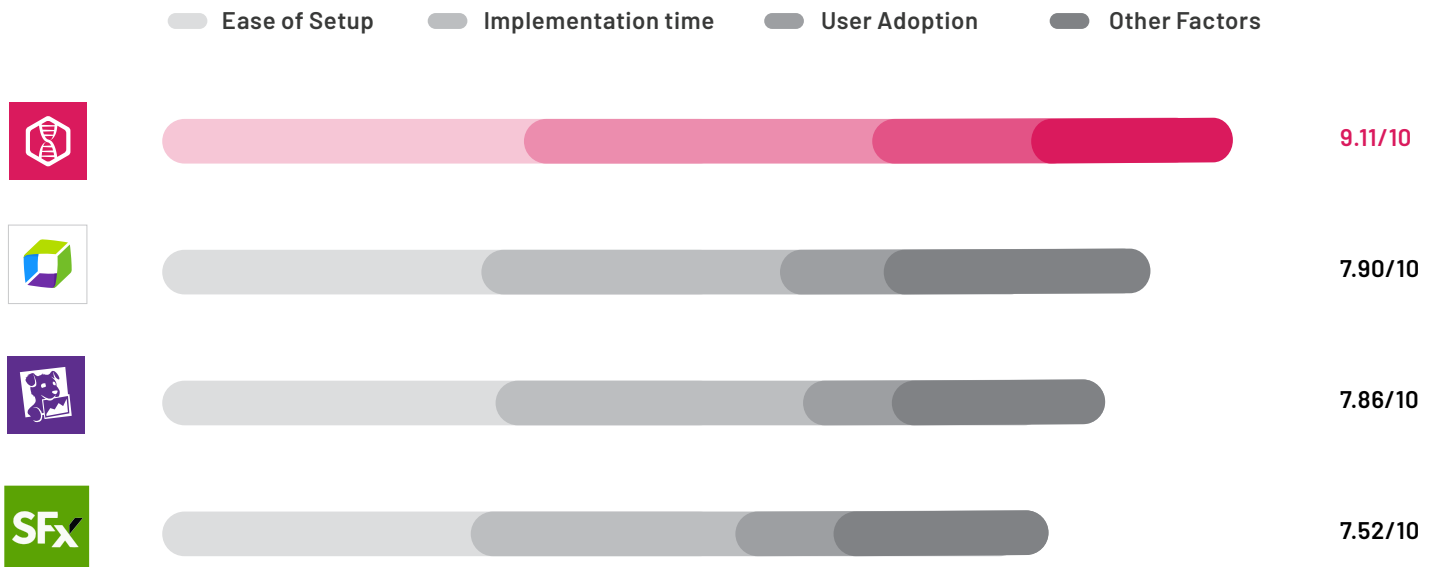

G2 is the world's largest tech marketplace where businesses can discover, review, and manage the technology they need to reach their potential. With G2, LogDNA users review the product and share their personal experiences. They are asked a series of questions that are standardized for all companies in the Enterprise Monitoring category to get a holistic sense of how easy each product is to implement and use.

ENTERPRISE MONITORING IMPLEMENTATION

Highest User Adoption	Fastest Implementation	Most Implementable	Easiest Setup
Mid-Market	**SUMMER**	**SUMMER**	**Small Business**
SUMMER 2021	**2021**	**2021**	**SUMMER 2021**

Implementation scores for enterprise monitoring are shown below. The chart highlights some of the factors which contribute to a product's overall implementation score including how easy a product is to set up, how long it takes to implement, and average user adoption.

| | Ease of Setup | Implementation time | User Adoption | Other Factors |

9.11/10

7.90/10

7.86/10

7.52/10

> "
> *Great for indexing, debugging and monitoring! We have elastic beanstalk servers in different environments (test, stage, prod US, prod Europe) and they have many autoscaling servers inside, so we needed a solution that can consolidate logs from all servers into a single understandable format. The benefit is just that, we can search all sources in a single interface.*
