

Log Monitoring Report

THE BEST LOG MONITORING PRODUCTS ACCORDING TO USERS

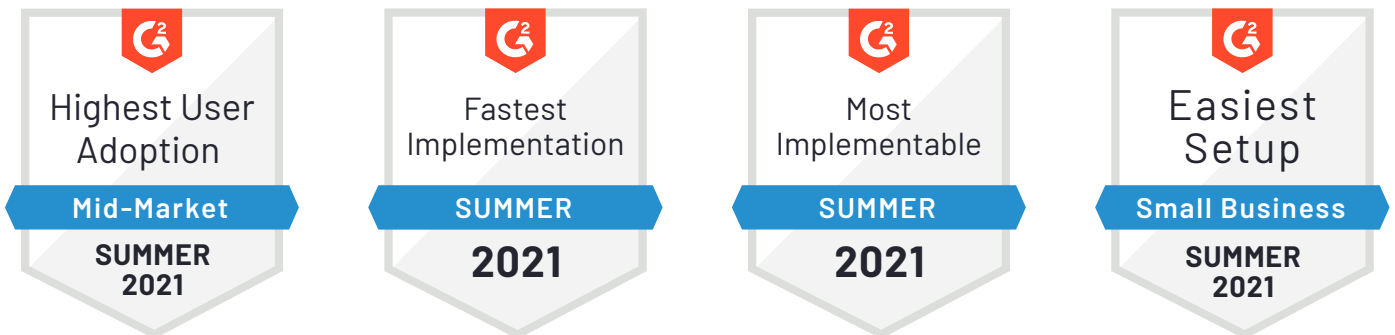

SUMMER 2021

SUMMARY

LogDNA is an industry leader for Log Monitoring. Dive into this eBook to see why users love us.

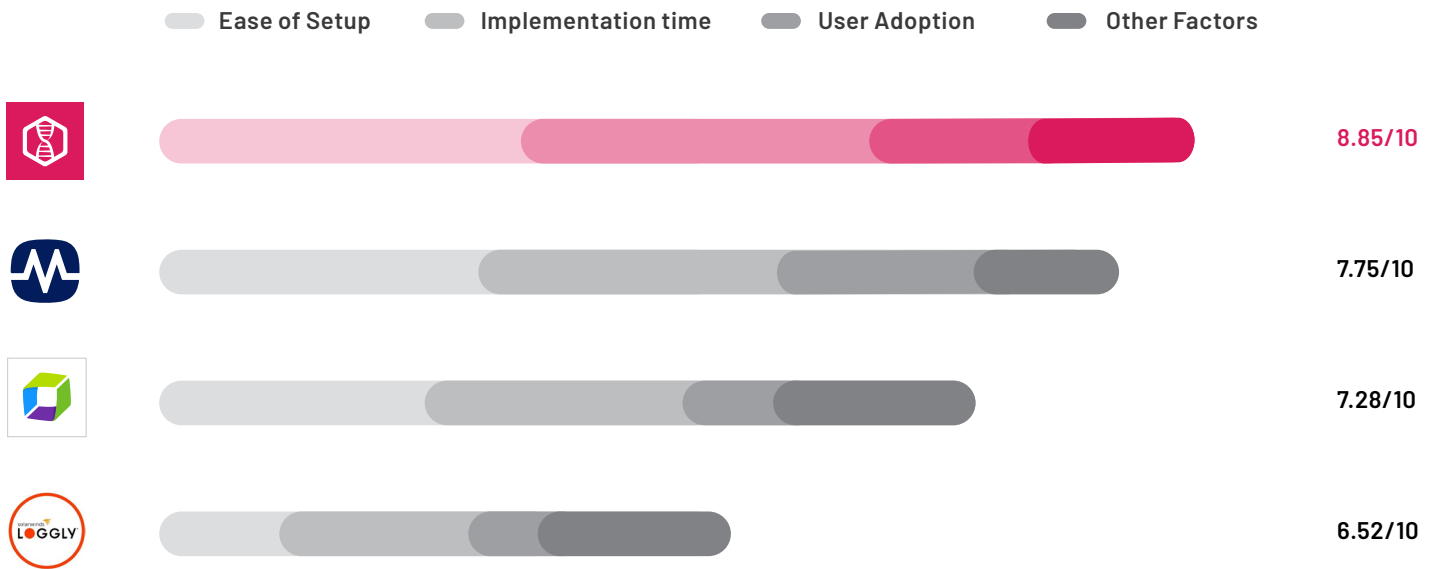

G2 is the world's largest tech marketplace where businesses can discover, review, and manage the technology they need to reach their potential. With G2, LogDNA users review the product and share their personal experiences. They are asked a series of questions that are standardized for all companies in the Log Monitoring category to get a holistic sense of how easy each product is to implement and use.

LOG MONITORING IMPLEMENTATION

Implementation scores for log monitoring are shown below. The chart highlights some of the factors which contribute to a product's overall implementation score including how easy a product is to set up, how long it takes to implement, and average user adoption.

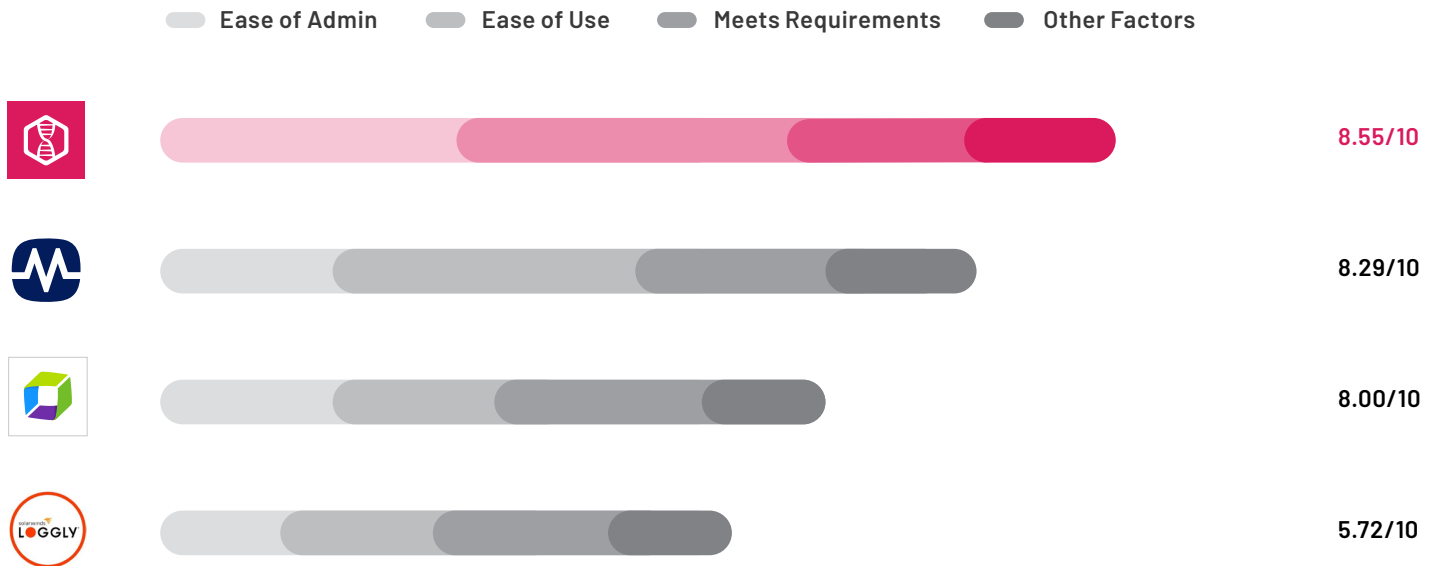

“
Great for indexing, debugging and monitoring! We have elastic beanstalk servers in different environments (test, stage, prod US, prod Europe) and they have many autoscaling servers inside, so we needed a solution that can consolidate logs from all servers into a single understandable format. The benefit is just that, we can search all sources in a single interface.
”

Julio E. Enterprise Architect

LOG MONITORING USABILITY INDEX

Usability scores for log monitoring are shown below. The chart highlights some of the factors which contribute to a product's overall usability score including ease of use and ease of administration.

ABOUT LOGDNA

At LogDNA, everything starts with our mission: To help developers be more productive so they can focus on what they love. We are a mission-driven, developer-first company. This mission is simple, but bold. It guides everything that we've done since our founding 5 years ago. We focus on logging because logs are the lifeblood for developers – it is the core atomic unit for how modern engineering teams understand what's going on with their systems, monitor what they are doing, and get information they need to troubleshoot. Simply put, everything rests on your logs.

Sign up for a fully-featured 14-day trial and optimize your logging workflow or reach out to our sales team to create a plan tailored to your needs at outreach@logdna.com today.
